### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: The abstract recites, "A data output apparatus for writing and reading data on storage memories, especially such storage devices using storage media like an optical disk. The apparatus efficiently reads data when writing and reading data in storage memories using storage media with a low writing and reading rate such as an optical disk. The apparatus comprises: a first buffer 3 that retains the inputted data stream; writing means 4 for writing on the aforesaid recording medium the data stream held in the first buffer 3; second buffer 6 for holding the data stream to output to external device; reading means 7 for reading on to the second buffer 6 the data stream recorded on the recording medium; and predicting means 20 for predicting the duration W to consume the data stream held on the second buffer 6 on the basis of the duration needed for presentation of video information contained in the data stream held on the second buffer 6. That ensures that writing and reading are real-time."

2. The following is an examiner's statement of reasons for allowance: The present invention is directed towards a data output apparatus for writing and reading data on storage memories using storage media with a low writing and reading rate. Independent claims identify uniquely distinct features, "predicting duration to consume said data

stream held on said the second buffer on the basis of the duration required for presentation of the video-audio information contained in said data stream held on said second buffer.” The closes prior art does not anticipate or render the above underlined above obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mishawn N. Dunn whose telephone number is 571-272-7635. The examiner can normally be reached on Monday - Friday 7:30 AM to 5:00 PM.
